

SANTEX VACUUM PUMP OIL

The **Santex Vacuum Pump Oil (SSHV Series)** is formulated from vacuum distilled ultra-pure synthetic hydrocarbon base stock to provide an extremely low vapor pressure vacuum pump lubricant. These non-foaming fluids have excellent water separation and provide protection against wear, rust and corrosion. The SSHV Series is an extended life lubricant designed to function in applications subject to severe temperature and environmental conditions.

Physical Properties

	<u>SSHV 15</u>	<u>SSHV 22</u>	<u>SSHV 32</u>	<u>SSHV 68</u>	<u>SSHV 100</u>
ISO Viscosity Grade	15	22	32	68	100
Viscosity @ 40°C, cSt	15.2	21.2	29.9	63.7	93.0
Viscosity @100°C, cSt	3.54	4.51	5.70	9.60	12.5
Viscosity @ 100°F, SUS	83.2	110	154	327	482
Viscosity @ 210°F, SUS	38.2	41.4	45.3	58.7	69.8
Viscosity Index	113	129	134	132	130
Flash Point, ° C	213	221	232	260	266
Pour Point, °C	-57	-62	-62	-48	-42
Copper Corrosion	1A	1A	1A	1A	1A
